JOURNAL OF
Contaminant
Hydrology

Contents Volume 20, 1995

VOL. 20, NOS. 1–2

Research Papers

Experimental study of movement and distribution of dense organic contaminants in heterogeneous aquifers
T.H. Illangasekare, J.L. Ramsey, Jr., K.H. Jensen and M.B. Butts 1

In situ and laboratory studies on the fate of specific organic compounds in an anaerobic landfill leachate plume, 1. Experimental conditions and fate of phenolic compounds
P.H. Nielsen, H.-J. Albrechtsen, G. Heron and T.H. Christensen 27

In situ and laboratory studies on the fate of specific organic compounds in an anaerobic landfill leachate plume, 2. Fate of aromatic and chlorinated aliphatic compounds
P.H. Nielsen, H. Bjarnadóttir, P.L. Winter and T.H. Christensen 51

Simulation of atrazine and metabolite transport and fate in a sandy-till aquifer
J. Levy and G. Chesters 67

Fractional wettability effects on two- and three-fluid capillary pressure–saturation relations
S.A. Bradford and F.J. Leij 89

The effect of residual kerosene on the transport of ammonium and nitrate ions in sandy soil
N. Benazon, P. Lafrance, R.R. Simard and J.-P. Villeneuve 111

Ionic tracer movement through highly weathered sediments
J.C. Seaman, P.M. Bertsch and W.P. Miller 127

Prediction and experimental validation of liquid-phase diffusion resistance in unsaturated soils
C.E. Schaefer, R.R. Arands, H.A. van der Sloot and D.S. Kosson 145

VOL. 20, NOS. 3–4

Special Issue "Integrated Nitrogen Management in Relation to Leaching and Groundwater Quality" by R.F. Follett and P.J. Wierenga (Guest Editors)

Foreword, by R.F. Follett and P.J. Wierenga (Guest Editors) iii

Fertilizer-N use efficiency and nitrate pollution of groundwater in developing countries
Bijay-Singh, Yadvinder-Singh and G.S. Sekhon 167

Nitrogen in Hungarian soils — nitrogen management relation to groundwater protection
T. Németh 185

Depleted ^{15}N carryover, leaching and uptake for three years of irrigated corn
L.K. Porter 209

Nitrogen and water management strategies to reduce nitrate leaching under irrigated maize
J.S. Schepers, G.E. Varvel and D.G. Watts 227

NLEAP model simulation of climate and management effects on N leaching for corn grown on sandy soil
R.F. Follett 241

0169-7729/95/$09.50 © 1995 Elsevier Science B.V. All rights reserved

Identification and mitigation of nitrate leaching hot spots using NLEAP–GIS technology
M.J. Shaffer, B.K. Wylie and M.D. Hall 253
Deterministic and stochastic modelling of water, heat and nitrogen dynamics on different scales with WHNSIM
B. Huwe and K.U. Totsche 265
Can a farming systems approach help minimize nitrogen losses to the environment?
M.J. Goss, E.G. Beauchamp and M.H. Miller 285
Management options to limit nitrate leaching from grassland
S.P. Cuttle and D. Scholefield 299
Management practices for minimising nitrate leaching after ploughing temporary leguminous pastures in Canterbury, New Zealand
G.S. Francis 313
Preferential flow, nitrogen transformations and ^{15}N balance under urine-affected areas of irrigated and non-irrigated clover-based pastures
N. Pakrou and P. Dillon 329
